REPLY TO
ATTENTION OF

Mr. John N. McMahon
Deputy Director
Central Intelligence Agency
Washington, D. C. 20505

Dear Mr. McMahon:

Once again The National War College will be conducting a block of instruction on National Security Planning and Decision-making for the Class of 1986 in December 1985. The course will cover relationships between the President, State and Defense, particularly focusing on the importance of organization and the process of providing national security advice and direction.

Last year, your presentation to the class on the Intelligence Community and the Role of the DCI in National Security Decisionmaking was a high point of the course. All students are cleared for [redacted] and the College has a well-established policy of holding all remarks in presentations such as this in strictest confidence. This, we believe, permits the speaker to discuss his subject freely and with complete candor.

STAT

We would prefer your speaking on the morning of Tuesday, December 17, 1985, but we have some flexibility, should this date pose major problems for you. The presentation is normally 30-40 minutes in length and, following a short break, a question and answer period is scheduled.

Please have a member of your staff contact Colonel Rich Siner, USAF, the Course Director, at 475-0901, if there are any questions.

We hope that we shall have the opportunity of welcoming you back to The National War College in December.

With best wishes,

Sincerely,

Perry
